Reservoir Construction by J. R. Ford.

I have worked with J.R. Ford earth moving contractors on three large farm reservoir projects, my role has been to design and supervise the construction. Each project has fallen within the ambit of the 1975 Reservoirs Act.

Each project has been completed successfully and to the designs and specifications with exceptional accuracy due to the proper use of laser surveying technology linked to the machines.

I would not hesitate to recommend J.R. Ford contractors.
